

## POS

It is a pleasure to reach out and present this proposal for the development of a Point of Sale (POS) system tailored to your pizzeria's needs. The goal of this project is to streamline order taking, optimize communication between servers and the cashier, and automate invoice generation and printing, all within a local environment that functions without an internet connection. If you'd like, you can view some of my previous work at my portfolio: [www.christiansuncin.com](http://www.christiansuncin.com)

## **System Development and Web Hosting**

### **Includes:**

- ✓ User and role management
- ✓ Order registration from tables using waiters' tablets
- ✓ Synchronization with the cashier to process payments and print invoices
- ✓ Local database
- ✓ Basic reports for sales, orders, and users
- ✓ WhatsApp chat integration
- ✓ Scroll-to-top button
- ✓ Programmed contact form
- ✓ 5 web sections
- ✓ 5 subdomains for promotional purposes
- ✓ 5 private email accounts

**Total system development cost:** \$1,400

### **Web hosting options:**

#### **Option #1**

Annual hosting: \$240 (paid once per year)

#### **Option #2**

Monthly hosting: \$20 (paid per month)

## IMPORTANT NOTES

1. The domain is paid once per year. If the proposal is approved, the first year is included for free.
2. To begin development, a **50% deposit** must be made to the indicated bank account. The remaining 50% is due upon project delivery.
3. The website includes basic web accessibility.
4. Future updates or modifications will be billed separately.

To confirm full agreement with this proposal, please write your full name, ID number, and sign digitally or provide a scanned signature.
